

Antec Controls

High performance airflow control and monitoring solutions

Carel

Humidification

Global Plasma Solutions (GPS)

Bi-polar ionization systems for indoor air quality and demand control ventilation strategies

Paragon Controls

Airflow and pressure sensing elements, transducers, room/space pressure monitoring systems, and control systems

Price Industries

Critical Environment products and solutions designed to deliver large volumes of air to critical zones without causing discomfort to occupants or interfering with the operation of fume hoods or similar equipment.

UltraViolet Devices, Inc (UVDI)

Ultraviolet Air and Surface disinfection technology
