

# INNOVATIVE SOLUTIONS SEMINAR

## TRANSITIONING TO LOW GWP REFRIGERANTS

Hosted at our new Warrendale Office!

**Havtech Office** | 193 Thorn Hill Road, Warrendale, PA 15086

Tuesday, November 12, 2024

12:00 PM - 1:00 PM

**IN-PERSON REGISTRATION**

**Overview** | *PDH ELIGIBLE*

**Jeff Seewald**

*HVAC SYSTEMS DEVELOPMENT MANAGER*

*Daikin Applied North America*

Join us to discuss the transition to low Global Warming Potential (GWP) refrigerants, focusing on the latest advancements and their impact on HVACR systems. This discussion will cover emerging refrigerants, examining how the A2L safety classification influences design and operational adjustments. Additionally, we'll explore key differences between two of the most widely used refrigerants—R-32 and R-454B—providing valuable insights to help professionals navigate these industry shifts.
