

Welcome to Havtech Learning Institute

Havtech is the Mid-Atlantic's largest and most experienced commercial HVAC equipment, building automation systems, service and energy solutions provider in Maryland and the metro DC region.

About Havtech Learning Institute

Havtech Learning Institute offers industry-leading training programs for heating, ventilating and air conditioning (HVAC) professionals, owner/operators, contractors, service technicians, building and systems engineers, designers, distributors, sales reps and internal employees. Whether receiving manufacturer training in-person or virtually, we will create a tailored syllabus to meet the needs of your team. Different courses are offered at each Sales Office. Please note the class locations under each course description in the following pages. Off-site classes held by special request.

Cancellation Policy

All payments are due upon registration and are non-refundable. However, if a student should need to cancel and reschedule their training, they may do so at no additional charge, as long as the change is made prior to the start of class. Name changes are also permitted at any time prior to the beginning of the class. Rescheduling and/or name changes will not be permitted after the class has begun.

All class dates are subject to change. Havtech reserves the right to cancel any class if the minimum enrollment requirement is not met or in the event of inclement weather or illness. All students will be alerted as early as possible in the event of a cancellation. The student may then either register for the next available date for the same course, or they may request a refund.

Private Classes

Private classes are also offered at Havtech. Courses can be structured based on your requests. To request a private class, please email **training@havtech.com**.

Registration

To register for an HLI course, please visit **www.havtech.com/events**. For additional questions or for more information on classes not listed in this catalog, please email **training@havtech.com** or call (301) 206-9225.

CLASS TYPE

VRV/VRF DAIKIN VRVIV (INVERTER) =

Daikin VRV® Installation featuring Emerion

Course Code: LI-VIVL1

Description Course covers the proper Installation practices for the Daikin

VRV indoor and outdoor heat pump and heat recovery systems

and accessories.

Target Audience Design Build Mechanical Contractors, Installation Contractors,

Technicians, Mechanics and Estimators

Duration 8 Hours

Prerequisites None

Certification No

Class Type

Course Code: LI-VIV008

Daikin VRV® Commissioning featuring Emerion

Description Course covers the proper practices for the Daikin VRV equipment

product line to include the pre-commissioning and System Commissioning Steps, set up of Selected Remote Controller and Outdoor Unit Field Settings, Outdoor Unit with

Ducted Discharge Air & Indoor Units.

Target Audience Mechanical Contractors, Installation Contractors, Technicians,

Mechanics and Estimators

Duration 16 Hours

Prerequisites Attend Daikin VRV Installation (LI-VIVL1) within the last 2 years

Certification No

Daikin VRV® Service & Troubleshooting

Course Code: LI-VRVST2

Daikin intelligent Touch Manager (iTM) Commissioning

Course Code: LI-ITM008

Description Course covers how to properly service and troubleshoot the Daikin VRV

system using the proper instruments and procedures.

Target Audience VRV Service Technicians

Duration 16 Hours

Prerequisites Attend Daikin VRV® Install (LI-VIVL1) and Daikin VRV®

Commissioning (LI-VIV008) within the last 2 years

Certification No

Class Type

Daikin VRV Owners Training

Course Code: LI-VRVOP1

Description Training covers basic operation and control of Daikin VRV Systems from

the facility engineers and owners/ property managers perspective. Topics include operation of VRV systems, control functions, routine maintenance, and basic troubleshooting. NOTE: This class is entry level and does not replace the Daikin factory training for VRV equipment.

Target Audience Facility Managers, Owners, Building Engineers, Building Managers,

Property Managers, Owners Operation Team

Duration 6 Hours

Prerequisites None

Certification Havtech Certificate of Completion

Class Type

Description

Students will understand and correctly describe the basic functionality and features of the intelligent Touch Manager (iTM) to include the iTM System Overview, its compatibility with Daikin and Field Supplied Equipment, and its Hardware Specifications. Students will understand and describe how to properly install and configure the iTM Plus Adapter following the DIII-NET wiring method.

Learner will be able to properly commission the iTM using WebXpress and properly program the iTM control functions, including Schedule, Setback, Timer Extension (Unoccupied Override), Auto Changeover, Emergency Stop, and Interlock. Learner will be able to properly commission the various iTM software options using the Preset Tool and editing CSV files for Management Point. Learner will be able to properly commission the iTM to interface, monitor, and control Daikin digital input and output units, as well as third-party controllers, such as WAGO.

Target Audience

Mechanical Contractors, Installation Contractors,

Technicians, Mechanics

Duration

16 Hours

Prerequisites

Attend Daikin VRV Install (LI-VIVL1) and Daikin VRV Commissioning

(LI-VIV008) within the last 2 years

Certification

No

Daikin Controls Integrator

Course Code: LI-VRVCI08

Description Course held by request only. Course covers the understanding and

successful application and the proper methods for integrating the

Daikin VRV control system.

Target Audience Commissioning Technicians, BMS Integrators, VRV Service

Technicians

Duration 8 Hours

Prerequisites None

Certification No

Light Commercial Training

Daikin Single/Multi-Zone Ductless Install & Start Up

Course Code: LI-RIS008

Description This course will cover the specific details on tools, controls, and procedures

needed to properly install and start-up a Daikin Mini- Split System.

Target Audience Mechanical Contractors, Installation Contractors, Technicians, Mechanics

Duration 8 Hours

Prerequisites None

Certification No

Class Type

Course Code: LI-RIST008

Daikin Single/Multi-Zone Ductless Service & Troubleshooting

Description This course covers the operation and functionality of the components in

a single and multi-port system and how to apply proper troubleshooting

techniques utilizing specific tools and resources.

Target Audience Mechanical Contractors, Installation Contractors, Technicians,

Mechanics

Duration 8 Hours

Prerequisites Attend Daikin Single/Multi-Zone Ductless Install & Startup (LI-RIS008)

within the last 2 years

Certification No

Daikin FIT Install & Commissioning Course Code: LI-DFITMIC Course covers the introduction, applications, and installation instructions for **Description** the Daikin FIT residential inverter air conditioning units. Topics covered are nomenclature, unit features, inverter technology and components, inverter benefits, boost mode, and indoor unit options. Also covered are commissioning procedures that include the ComfortNet installation and set-up, charge mode, start-up, and the required system test. **Target Audience** Mechanical Contractors, Installation Contractors, Technicians, Mechanics **Duration** 8 Hours **Prerequisites** None Certification No

Daikin VRV® Local Design Workshops with WebXpress Guideline

Course Code: LI-VRVDW

Description

Course provides a comprehensive introduction to the VRV concept and an insight into the optimized design and application of VRV Systems including an overview of the features and benefits of the VRV system and its main components, Key factors that ensure optimized equipment design & selection, how to use the VRV WEB-Xpress selection tool, ad 'Hands on' project design and equipment selection.

Target Audience

Engineers, Architects, Design Build Mechanical Contractors,

Installation Contractors

Duration

8 Hours

Prerequisites

Attendees should have a foundational understanding of Daikin VRV® technology and application. Attendees should have a general understanding of Daikin City and the WebXpress selection program is ideal but is not a requirement.

Certification

No
